SOUND THERAPY

Sound healing sessions with Alchemy crystal singing bowls and other tools have a variety of effects that

interact with each other and the body in ever expanding alchemies; clearing, activating, restructuring, rebalancing and healing. Through sound, vibration and intent they assist in clearing blockages, activating chakras and elevating our state of consciousness into higher layers of expanded awareness.

The sound and vibrational frequencies help us to open and release what is no longer serving. Crystal bowls help to remove blockages on an energetic and cellular level, by bringing them to the surface so we can release those emotions and continue on our healing journey of learning, expansion and love.

REIKI HEALING

Reiki is a healing technique that uses the universal life force energy to balance the subtle energies within our bodies, to support healing and contributes to balanced physical, mental, emotional, and spiritual states of being. During a Reiki session, your Reiki practitioner may lay their hands on your body or just over your body in a series of hand positions to deliver Reiki energy.

General Information

Energy medicine aims to help the flow of energy and remove blocks in a similar way to acupuncture or acupressure. Improving the flow of energy around the body can enable relaxation, relieve pain, speed healing, and reduce other symptoms of illness. With any Energy Healing session, you may feel a floating sensation, tingling or physical sensations, emotional release, increased relaxation, enhanced sense of balance, centeredness, and calm. The effects of Sound Therapy and Reiki are cumulative in which regular treatments can invite significant improvement. Regular sessions support well-being in every way. If you experience any pain or discomfort during this session, immediately inform the practitioner.
